STANDARD OPERATING PROCEDURES

Raw Material Sampling and Incoming Quarantine Control

Document No.: SOP-QCD-099
Revision No.: 001
Issue Date: October 1, 2026
Effective Date: October 15, 2026
Review Date: October 15, 2027

1. PURPOSE
1.1 To establish a standardized procedure for sampling, quarantine, and laboratory release of incoming raw materials.

2. SCOPE
2.1 This procedure applies to all Quality Control inspectors and Warehouse receiving staff at NKB Manufacturing.

3. RESPONSIBILITIES
3.1 QC Inspector: Performs statistical sampling and attaches Quarantine Hold tags.
3.2 QC Supervisor: Reviews analytical results and issues disposition.

4. MATERIALS AND EQUIPMENT
4.1 Sterile stainless steel sampling thief, tamper-evident sample bags.

5. PROCEDURE
5.1 Verify supplier Certificate of Analysis (CoA) upon delivery.
5.2 Segregate pallets in the designated yellow Quarantine zone.
5.3 Collect composite samples according to ANSI/ASQ Z1.4 Level II.

6. RECORDS
QC-FRM-014 Incoming Raw Material Inspection Log
